COMPLETE PISTON  
GASKET SET  
REPLACEMENT ECU**

**SUITABLE FOR: GET WIFI COM** 

Part Number: **P40048510055**

€ 409,01 + VAT

Athena gives a wink to the young lovers of two wheels and introduces the **new big bore cylinder kit** for the aggressive naked bike **Yamaha MT-125**. After the recent success with the power kit developed for Duke 125, the Italian-based company offers this new big bore cylinder kit for young bikers, which upgrades the displacement to 180 cc. In the kit, which contain a big bore cylinder, racing piston and dedicated gasket kit it is also include a replacement GET ECU, which optimizes bike's performances at all engine RPM. The ECU is plug and play without need of any extra wiring, furthermore it comes with a map 1-2 switch to select between two maps: 1 full power, 2 soft response to low and medium RPM for wet conditions. In addition it is also possible to customize the two maps by connecting the optional WiFi Get device to modify Fuel and Ignition timing through a free Smartphone app. The Cylinder kit is ready to be installed without requiring any modification or processing on the original crankcase. Treat your Yamaha MT-125 power at the highest levels with the new Athena kit!

### TECHNICAL DATA

WHEEL POWER

	Unit of Measure	OEM	KIT Athena
DISPLACEMENT	(cm3):	124,7	182,7
CYLINDER BORE	(mm):	52	63
STROKE	(mm):	58,6	58,6
COPPRESSION RATIO		11,2:1	11,4:1
